

BIO DEUTSCHLAND

European Business Development Conference

7 – 8 October 2014 | Dresden | Germany

Florian Fischer

Dr Fischer joined Affimed in 2005 as Chief Financial Officer on a part-time basis, which has increased to a full time position over time. He has been responsible for the company's private and public fundraisings so far.

Dr Fischer is founder of MedVenture Partners, a Munich-based corporate finance and strategy advisory company focusing on the life sciences and health care industry. Dr Fischer was the Chief Financial Officer of Activaero GmbH from 2002 until 2011 and has been involved with corporate development until the successful sale of Activaero to Vectura in 2014. He also served as managing director of AbCheck in 2009.

He started his professional career at Deutsche Bank and worked with KPMG for more than six years until 2002 where he was responsible for biotech and healthcare assignments.

Dr Fischer is also a member of the audit committee of Amphivena.

He holds a graduate degree in business administration from Humboldt University, Berlin and a Ph.D. in public health from the University of Bielefeld.
