

International Programme

The DBT programme consists of 2 plenums, 5 tracks with 4 sessions each and 3 breakfast workshops and covers topics such as Orphan Drugs, Infectious diseases, Biobased Economy, Big Data, Genome editing and more.

For the first time we offer a programme for international attendees. We will provide a simultaneous translation for the plenum at the first conference day. The company presentations of innovative early and late stage German biotech companies will be held in English as well. All international participants are welcome to join the networking reception on Tuesday evening. On Wednesday morning, April 27, we will have a breakout with breakfast.

A DBT day pass covering most of the English tracks and the networking party on Tuesday evening is 175 €. You can get a two days pass for 350 €. Please use the fax form on page 4 to register for the event. We look forward to meeting you in Leipzig.

Tuesday, 26 April 2016
